EPSON INTRODUCES THE STYLUS D120

A high-speed, high-quality printer for the office or home. As well as printing laser-like text, vibrant, colour-graphics and photos, this four colour printer is one of the fastest in its class. With speeds up to 37ppm in black and white (25ppm business quality) and 20ppm in colour (11ppm business quality) it is an ideal printer for the home office or small office.

The Epson stylus D120 uses Epson's individual ink cartridge system; only the colour that is used needs to be replaced.

Certified by the ENERGY STAR international standard and with only 15 Watts power consumption, the Epson Stylus D120's low power printing technology saves energy especially compared to laser printers, further helping to keep costs down.

Epson has integrated an innovative Dual Black Ink System into the Epson Stylus D120 which increases print speeds and page yields. As a result small businesses that need a productive and cost-effective printer will find the Epson Stylus D120 a suitable low cost alternative to a laser printer. In addition, the printer supports high-capacity black ink cartridges, allowing for even higher print yields and larger volumes of text-based documents. Unlike similar priced laser printers, it provides the flexibility to print high-quality documents and photos in colour.

FASTER PRINTS A BUSINESS LETTER IN AN INCREDIBLE 1.6 SECONDS
CHEAPER GREAT VALUE PRINTER WITH COST-EFFECTIVE INDIVIDUAL INKS
GREENER USES JUST 15 WATTS - THAT'S A QUARTER OF A STANDARD LIGHT BULB
CLEANER SINGLE INK CARTRIDGES MEAN LESS MESS, LESS FUSS AND LESS WASTE
BETTER QUALITY IS NOT COMPROMISED FOR SPEED
